## About Clinion

ClinION is hospital/nursing home management and information system based on the latest EMR technology from Plus91. ClinION enables doctors, nurses, emergency personnel and technicians to take better and safer decisions thereby providing quality service and care. ClinION is built on Plus91's medical record platform which improves performance and provides instant scalability. Easy to use User Interface and well designed workflows help doctors and administration alike run the hospital.

ClinION comes with simple to learn video help files, and standard work flows with a graphical UI which makes it easy to learn and fun to use, migrating to it is quick and easy! ClinION can increase efficiency of the hospital by providing instant access to relevant information, speeding up manual writing and calculated tasks through automation, and most importantly it leaves a good feeling with the customer of being serviced well.

It is used in hospitals, multi-specialty hospitals, medical centers, nursing homes & comes in built with templates for all medical as well as admin tasks, drawing on Plus91's huge resource of doctor, medical body approved templates to service the given need.

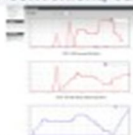

What's more the Doctors can customize the templates to their hearts content.
