LabC
by Plus91

Automate your Lab today!
Improve the quality of your reports
Increase the capability of your Lab with LabC!
The perfect Vitamin for you and your Lab.
Be future ready with state of the art innovative design

LabC is Plus91's offering for Pathology Labs, it is a complete Lab Information Management System, handling all aspects of the business. LabC has the advantage that it can be run inside a clinic on a single system, over a LAN working on multiple PCs and even over the Internet linking multiple centers and lab locations. LabC requires no extra effort or licensing cost in reaching to more than 1 user at the same time.

LabC manages the administrative as well as medical aspects of a software system. It manages Appointments, Schedules, Referrals, Accounts, Inventory & Collection Centers in its admin capacity, improving efficiency. In its medical profile, it manages samples, test templates, reports, range based alerts to provide better service.

Add-on Modules:

- SMS Reminders and Alerts Services
- Integrated Email   • Telemedicine Option
- Interfacing with Bar Code Scanners
- Online Back-Up   • Online EMR Access
- Claims Processing • 24/7 Online Support
- Statistics and Analytics

- Patient Laboratory Record Management
- Accounts & Inventory
- Staff and User Management
- Schedule Creation
- Template Based Lab Reports
- Sample Management
- Referrals Management
- Image Attachments
- Collection Center Management
- Test Profiles Creation and Management

Advantages:
1. Increases efficiency: Auto-bill creation, sample collection, structured reporting
2. Saves paper and make your lab look neat
3. Increases accuracy: Prevent mistakes in billing, add samples and barcodes properly, use reference range based templates
4. Manages resources: More than one person can work on the software at the same time
5. Improves Patient Interaction: Email and SMS module allows you to send alerts
6. Keeps you updated: Whether it is an upto date collection center credit report or schedule
7. Keeps a check on Accounts: Export to excel payments & bills, manage discounts etc
8. Improves diagnosis: Use correct templates, access patient history & improve decisions
9. Is Future Ready: Works on phones, iPad, Multiple OS, seamlessly!

Labc comes with templates designed for multiple groups and profiles. We support:

- Pathology Tests
- Bio Chemistry Tests
- Infection Diseases Tests
- Pharmacology Tests
- Hematology Tests
- Metabolic Tests

- Allergy Tests
- Drug Level Tests
- Serology Tests
- Bio Markers
- Infertility Tests
- Thyroid Tests

Get customized templates to suit your needs. With specially designed work flows on each template so you fill the right information at the right time, LabC templates also come with references ranges, units, out of range alerts, auto-fill options etc built into the templates.

LabC also integrates with a Bar Code scanner so that all your samples can now be tagged and easily retrieved, being anonymous yet safe to handle. LabC can integrate with hardware solutions allowing the direct data capture from the lab equipment

So get your own Lab some respite and invest in making it professional, upto date and customer friendly. Send SMSes and Emails directly from the software, no need to manage a phone directory, cumbersome SMS portals or Email Applications. Directly send reports as PDF attachments by email or send the vital report readings instantly by SMS to the referring doctor. All these features seamlessly integrated with the software. So call us today!
