

# MediXcel

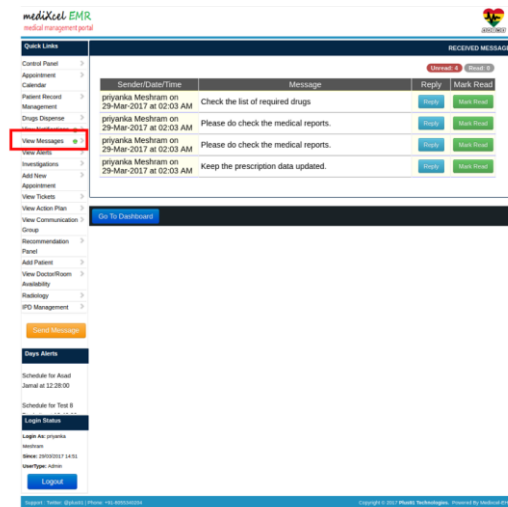

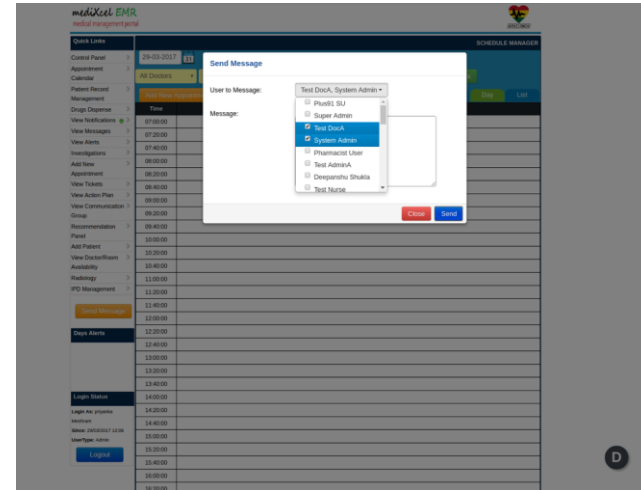

## Differentiating Features

mediXcel **EMR**  
medical management portal

# Messaging and Notifications

- Users can send messages to one or more users using the Messaging feature
- Received messages can be “Marked Read” as well as Replied to ensure compliance with organization protocols.
- A color coded messaging status is displayed in the menu bar
- On any screen, a User can unobtrusively see if a new message or notification has been received via the messaging status.
- Users can also receive notifications, which are richer in functionality and may include patient specifics , links, etc.
- Notifications are auto generated by the system based on pre-set configuration as well as manually sent by other Users.

D

## Security and Audit Trail

---

- Medixcel is both HIPAA and CFR21 Part11 compliant.
- The permissions system offer Granular user based access. Ability to restrict or allow user access on a page by page level.
- Comprehensive Audit trails ensure that Medixcel stores date and time stamped records of each action by each user.
- Going beyond auditing login information , both EHR and CPH modules have audit trails enabled to track access of screens by Users as well as track specific actions performed by the Users in the System

# Audit Trails

# Patient Engagement

---

- Medixcel offers optional patient engagement features to help practices improve the patient experience and health outcomes
- Patient Engagement Add-On's are available for each of the 3 Tenets of Patient Engagement →
  - Inform
  - Engage
  - Feedback
- Some of the available solutions are
  - PHR (Patient Portal)
  - Patient App
  - Action Plan Management
  - Ticketing and Feedback system
  - Health Diary/ Fertility Diary / Baby Diary

# PHR/Patient Portal

The screenshot displays a patient portal interface with the following sections:

- Welcome Message:** "Welcome [Name] Medical Group" with a profile picture icon.
- Navigation:** Home | My Tickets | My Diary | My Account - | Add Feedback | Logout
- Key Information:**
  - Membership Type: Retail( Loyalty Member Plan )
  - Primary Clinic: Dummy Clinic(PU-A02 - Near Phoenix Marketcity,Pune)
  - Last Visit: 28-01-2017
  - Upcoming Visits: No Next Visits
- Bill Status:**

Bill No	Bill Date	Bill Amount	Status	View
BL-31449	28-01-2017	Rs. 1901	Pending	<a href="#">View</a>
BL-30895	30-05-2016	Rs. 14	Pending	<a href="#">View</a>
- Recommended Studies:** (Empty section)
- Medical Snapshot:**
  - Allergies: Dust
  - Recent Symptoms: No Symptoms Reported
  - Current Medications: No Current Medication
  - Recent Investigations: No Recent Investigations
- Quick Access:**
  - Prescriptions
  - Diagnosis
- Bottom Navigation:**
  - View Medical Reports (Icon: Clipboard with checkmark)
  - Appointment Manager (Icon: Calendar)
  - Manage External Information (Icon: Clipboard)

Footer: Privacy Policy Terms & Conditions | © 2006-2017 Plus91 Technologies Powered By Medixcel-PHR

## The Patient Portal allows

- Appointment Requests
- Access to Medical Records
- Ability to Upload External Reports, - External Consults as well as Diagnostic Tests
- Access to Prescriptions
- Personal Health Diary
- Action Plan Management\*
- Feedback\*
- Access to Bills
- Medical Calculators\*

- The Add On's must have been enabled. May incur Additional Charges

# Patient Engagement – Programs/ Triggers

The screenshot shows the 'Create Alert Programme' interface in the mediXcel EMR Management System. The breadcrumb trail is Home > Member Engagement > Create Alert Programme. The left sidebar contains 'Quick Links' such as CPH Dashboard, Manage Members, Manage Corporate, Manage Plans, Manage Employee, Manage Employee Doctor, Manage Clinics, and View Login Instances Report. The main content area has a 'Logout' button and a 'Go To Dashboard' button. The 'Create Alert Programme' section includes a 'Programme Name' field with the text 'Add Patient alert', a 'Programme Trigger Type' dropdown menu set to 'New Patient Signup', and an 'Alerts' section with the message 'No Alert Created Yet!' and an 'Add Alert' button. A 'Create Programme' button is located at the bottom of the form.

The screenshot displays the 'Medixcel - Add Alert' modal form. The form fields are: 'Alert Type\*' (Email), 'Alert Name\*' (Check up), 'Days After Trigger' (No of days), 'Alert Frequency\*' (Weekly), 'Alert Occurrence\*' (5), 'Alert Time\*' (15:32), and 'Email Template' (Recall List Email). The 'Message\*' field contains a rich text editor with various icons for text formatting and alignment. At the bottom of the modal, there is a copyright notice: 'Plus91 Copyright © 2017 . All Rights Reserved.' and a 'Close' button.

# Patient Engagement – Communication Groups

The screenshot displays the Medixcel interface for managing communication groups. The top section shows a table of existing groups, and the bottom section shows a detailed filter configuration screen.

Sr.No.	Group Name	UserInfo	View	Edit	Remove
1	Female category				
2	Male category				
3	NHIA Male category				
4	Dental category				
5	Paediatrics category				

The filter configuration screen shows the following settings:

- From:** 03/28/2017 **To:** 07/13/2017
- AND**
  - Age: [Dropdown] [X]
  - Ranges From: 1 To: 14
- AND**
  - Gender: [Dropdown] [X]
  - Gender: Male [Dropdown]
- AND**
  - City: [Dropdown] [X]
  - City Name: Adenta East [Text]
- AND**
  - Filtering a Category: [Dropdown] [X]
- AND**
  - Membership Plan: [Dropdown] [X]
  - Plan: NHIA [Text]
- AND**
  - Service Name: [Dropdown] [X]
- Modality:** PAEDIATRICS [Dropdown]
- Study:** Diabetes with Complications <12 Yrs [Text]

Applying Filter ( Between : 03/28/2017 and 03/25/2017) and 07/13/2017)

Users can create new Communication Groups using filters like Age, Gender, City, Billing Plans, Treatments, etc. These Groups are then available for triggered communications – Email, SMS, Portal Alerts

# Medical Microsites & Calculators

- Use this Online Fertility Calculator to determine your peak fertility dates.
- You can choose to get the fertile days for the next 3 months to over the next 1 year.
- This can be especially helpful for couples that need to time "baby-making sex".
- Once you have the dates, you can set up FREE EMAIL REMINDERS , and even pay a small fee to receive SMS's alerting you on your fertile days ( at the moment, this service is available only in India)
- The Calculator calculates your most fertile days based on the fact that:
  1. Ovulation occurs 14 days before the next menstrual period is due.
  2. Fertility peaks on the day of ovulation and for 4 days prior to this.
- [From here you can also subscribe to the popular ezine Fertility Boosters](#)

Enter the following to get started .

Please enter the first day of your latest period.  
(Click on the white box which says "Click Here" and select a date from the Calendar View)

The Length of your menstrual cycle(in Days).  
[This is the time from Day 1 of your period ( the day your bleeding starts) to Day 1 of your next period.If you are not sure how to calculate this, Please click on the Blue Link on the right; In the window that opens, enter your last 4 Menstrual Cycle Dates, and we will do this for you !]

Select

Select the number of Cycles for which you wish to get the Fertile Dates

# Lead Management

The dashboard provides a comprehensive overview of lead management. It features a top navigation bar with 'Dashboard' and 'Plus91 SU' options. The main section is titled 'Lead Management' and includes buttons for 'Add New Lead' and 'Export All Leads'.

Key metrics are displayed in four colored cards:

- Total Leads: 3
- In Progress: 1
- Converted: 0
- Cancelled: 0

Below these cards, there are 'Lead Filters' and a 'Lead Listing' table. The table shows a single lead with the following details:

#	Name	Contact	Email ID	Date	Sales Representative	Status	Action
1	Jenil khatri	9558244177	jenil.khatri@plus91.in	01-03-2017	Super Admin	Cold Lead	[Action icons]

The 'View Lead' section provides a detailed profile for Jenil khatri, including contact information, services (X-Ray, Mammography), and a timeline of events:

- Email:** Sent on Thursday, 01-03-2017 at 11:15 PM.
- Status Update:** Updated on Wednesday, 01-03-2017 at 12:42 PM to 'New Lead' and 'Cold Lead'.
- Add Lead:** Added on Wednesday, 01-03-2017 at 11:30 PM.

Lead Management allows Clinics to manage the entire journey from an enquiry to the conversion to a patient/ member.

It allows the clinics marketing as well as medical departments to manage interactions, create touch points, manage events/meetings with the leads
